Single image lightbox

Three simple popups with different scaling settings.
1 — fits horizontally and vertically,
2 — only horizontally,
3 — no gaps, zoom animation, close icon in top-right corner.

Lightbox gallery

You may put any HTML content in each gallery item and [mix content types](#). In this example lazy-loading of images is enabled for the next image based on move direction. If you wish to add touch-swipe support, check [my article](#) on the Smashing Magazine, or [new PhotoSwipe](#) script.

Single image lightbox

```
$(document).ready(function() {  
  
    $('.image-popup-vertical-fit').magnificPopup({  
        type: 'image',  
        closeOnContentClick: true,  
        mainClass: 'mfp-img-mobile',  
        image: {  
            verticalFit: true  
        }  
    });  
  
    $('.image-popup-fit-width').magnificPopup({  
        type: 'image',  
        closeOnContentClick: true,  
        image: {  
            verticalFit: false  
        }  
    });  
  
    $('.image-popup-no-margins').magnificPopup({  
        type: 'image',  
        closeOnContentClick: true,  
        closeBtnInside: false,  
        fixedContentPos: true,  
        mainClass: 'mfp-no-margins mfp-with-zoom', // class to remove default margin  
        image: {  
            verticalFit: true  
        },  
        zoom: {  
            enabled: true,  
            duration: 300 // don't forget to change the duration also in CSS  
        }  
    });
